VIKASH KUMAR

SUMMARY

Senior Test Engineer with 8.3 years of experience in automation and manual testing, specializing in Selenium WebDriver and Python with PyTest. Strong Telecom domain expertise across ETL Testing, Rating, Billing, OSS, BSS, Mediation, Provisioning, Charging, 4G/5G, FCAPS and KPI Reporting. Proficient in API automation using PyTest and Requests, data validation, defect tracking, test reporting, CI/CD integration and Git. Hands-on with n8n for building AI agents and workflow automations, with working knowledge of Generative AI, Agentic AI and Kiro CLI to speed up test design and automation. Works closely with cross-functional teams to improve test processes and deliver reliable releases.

EXPERIENCE

Senior Test Engineer
Ericsson Global | Bangalore | February 2022 - Current

- Designed and executed Selenium WebDriver automation scripts for web application testing using Python.
- Developed rApp test cases focusing on Lifecycle Management processes aligned with O-RAN specifications.
- Validated test results and logged defects in Jira.
- Ran sanity tests in Staging and Production environments to confirm release stability.
- Executed dynamic service activations to verify integration and performance.
- Contributed to OSS, BSS, Rating, Billing, and core networks including PGW, MME, HSS, HLR, VLR, SGSN, AMF, UDM.

Test Consultant
CSG International | July 2020 - January 2022

- Wrote test cases from user stories and features.
- Analyzed features and user stories in Confluence to establish testing criteria.
- Validated test results, logged defects in Jira and fetched logs using UNIX.
- Tested SingleView telecom product flows, including Customer Creation, Rating, Billing and Invoicing.
- Performed end-to-end testing of the SingleView product.

Test Analyst
IBM India Pvt. Ltd (Experis IT Pvt. Ltd) | July 2018 - July 2020

- Executed end-to-end application data flow testing utilizing Selenium and UFT.
- Finalized test cases and automation regression scripts to ensure comprehensive coverage.
- Validated test results to confirm alignment with project specifications.
- Logged and tracked defects in HP-ALM.
- Performed end-to-end testing of the SingleView product.
